

## ALUMINUM CONTROL The Source Aluminum Control System

### TECHNICAL DATA

- Cabinet power tension ..... 400Vac 50/60Hz ±5%
- Power ..... Depends on n° machine Stepping Motor
- Max. Dimensions of cabinet ..... 1200X2000X600 mm
- Ambient Temperature ..... +40°C/+10 °C
- Storage temperature ..... +15/+30 °C
- EMC compatibile
- Elaboration System..... PLC Siemens or other
- Operator Interface..... Pc, Scada System: Wincc, iFix, Custom VB.Net, TP comfort panel
- HMI..... Power manager display, Graphs, Hystorical Archive display
- Data Exportable..... SQL, PDF, Excel
- expandable and can be integrated with machine parts
