

SOURCE CONTROL The Source Power Control System

TECHNICAL DATA

- Cabinet power tension 400Vac 50/60Hz ±5%
- Power Depends on n° machine source
- Max. Dimensions of cabinet 2200X2000X600 mm
- Ambient Temperature +40°C/+10 °C
- Storage temperature +15/+30 °C
- EMC compatibile
- Elaboration System..... PLC Siemens or other
- Operator Interface..... Pc, Scada System: Wincc, iFix, Custom VB.Net
- HMI..... Power manager display, Graphs, Hystorical Archive display
- Data Exportable..... SQL, PDF, Excel
- expandable and can be integrated with machine parts

Microsoft SQL Server, MySQL, ORACLE DATABASE, PDF, Excel
